

CHT Germany GmbH | Postfach 1280 | 72002 Tübingen

Tübingen, 22. November 2023

CHT Group with new management

Ladies and Gentlemen,

Prof. Dr. Klaus Müller took over the management of the CHT Group as sole Managing Director on November 20, 2023. Mr. Müller has been supporting the company for many years in a supervisory role via the Beitlich Family Foundation. He has now relinquished this position to take over the operational management of the CHT Group.

The CHT Group, which has been based in Tübingen since 1953 and operates in the chemical industry, is sharpening the social, ecological and economic sustainability goals it has set itself and is facing up to the pressing social and regulatory challenges of our time. In the course of ongoing efforts to transform and focus more strongly on sustainability, it was determined that a realignment of the management level was necessary in order to achieve the goals set more effectively. This decision reflects the CHT Group's continuous adaptation, changing market conditions and commitment to continuous improvement. The realignment of the management team is also necessary to achieve the transformation.

The CHT Group stands for continuity and reliability even in times of change. Mr. Müller is taking over the management of a strategically and financially sound group of companies.

Together with the experienced managers and committed employees, the successful and sustainable relationships with our customers, suppliers and partners will be continued and expanded in the long term.

About the CHT Group

The CHT Group is a medium-sized global player for specialty chemicals and is active worldwide in development, production and sales. CHT Germany GmbH in Tübingen is the headquarters of the group, which focuses on sustainable chemical products and process solutions. CHT's TEXTILE SOLUTIONS improve the quality, functionality, appearance and purity of textiles and optimize their manufacturing processes. INDUSTRY SOLUTIONS offer innovative products and process solutions in the fields of silicones, building materials, paints, coatings, paper, agricultural products and cleaning and care products. By pooling the strengths of the entire Group, SCIENCE & SERVICE SOLUTIONS is constantly developing further innovative products, applications and processes and offering comprehensive technical advice. Highly qualified specialists work in state-of-the-art laboratories for development, analysis and application technology to develop ideas and solutions that meet the latest requirements.

The CHT Group is represented by 26 companies with production and sales locations worldwide and generated consolidated sales of EUR 705 million in the 2022 financial year with around 2,400 employees.
